

VisionTech Enrichment Class at Hillcrest

Winter 2011

In this fun Animation class students will be delighted to see their doodles come alive. We will be using Animation-ish, a program that will allow students to express themselves in a new way and introduce them to the powerful concept of moving art, or animation. Students of all ability levels will find a way to express their ideas and creativity using the multiple levels of the Animation-ish software. Each student will work on their own laptop and take home their finished project.

Registration is on a first-come, first-served basis. Our class are very popular, so please get your registration in early! Please note; Refunds will be issued only prior to the start of the class.
