

# VisionTech Enrichment Class at Hillcrest

## Winter 2011

VisionTech invites you to come experience the user friendly Multimedia Fusion 2. Learn to design and create a realistic looking video game with everything from health meters to multiple lives. Learn to add levels, health counters and understand how the game design process really works. At the end of the class you will take a disc of your game home. Students will work individually on their laptop. At VisionTech we encourage students to create challenging and exciting nonviolent games. Returning students will learn advanced skills.

### Registering By Mail:

If you are submitting this form by mail instead of registering online, please fill this form and mail it to the address below. Registration is on a first-come, first-served basis. Our class are very popular, so please get your registration in early! **Please note; Refunds will be issued only prior to the start of the class.**
